

Lead Vial Shield With Magnetic Top With or Without Glass Window Color Coding - A Visual Indicator To Avoid Mix Up

- **Magnetic top** designed to facilitate minimal handling
- Bottom is not removable
- Accommodates most 10 ml vials
- .31" lead shielding
- Available with or without lead glass
- 4.2 lead density lead glass window
- Weight: 2.2 lb
- Outer Dimensions: 1.70" Diameter x 3.0" H
- Inner Dimensions: 1.05" Diameter x 2.24" H

Without Glass

053-610-NG	Glucoscan (red)
053-611-NG	Osteolite (purple)
053-612-NG	Pulmolite (lt orange)
053-613-NG	Pyrolite (blue)
053-614-NG	Hepatolite (brown)
053-615-NG	Microlite (yellow)

For MAA, DTPA and MDP

DTPA-1-NG	Green
MDP-1-NG	Silver
MAA-1-NG	Cyan

With Glass Window

053-711-WG	Glucoscan (red)
053-712-WG	Osteolite (purple)
053-713-WG	Pulmolite (lt orange)
053-714-WG	Pyrolite (blue)
053-715-WG	Hepatolite (brown)
053-716-WG	Microlite (yellow)

For MAA, DTPA and MDP

DTPA-1G-WG	Green
MDP-1G-WG	Silver
MAA-1G-WG	Cyan

High Density Lead Glass Vial Shield

- High density (5.6) lead glass provides clear 360° visibility
- Automatic centering action positions vials within the shield and holds them securely for extra safety and convenience
- Suitable for low-energy radioisotopes
- Removable cap makes cleaning and needle insertion simple
- Lead equivalency: 0.12"
- HVL for 99m-Tc: 10
- Accommodates Vial Sizes: 5 thru 30 ml
- Weight: 3 lb

001-075 Vial Shield, .12" lead equiv
