

## Thyroid/Parathyroid Imaging Support

Dimensions: 14.5" W x 17.5" D x 4.5" H

- Provides optimal exposure of the neck
- Comfortable head rest
- **Chin is tilted back for parathyroid and thyroid imaging**
- Flat base will contour to fit most imaging tables
- Constructed of molded foam
- Seamless bacteriostatic coated surface is tough and fluid proof
- Wipes clean with standard germicidals
- Meets CAL 117 flammability standards

NMC-601U Thyroid/Parathyroid Imaging Support

## Adjustable Neck/Head Support System

**Ideal For Supine Imaging**  
**Thyroid Salivary**  
**Parathyroid Lymph Nodes**

Total Dimensions: 14.25" W x 21" D x 9.5" H

- Technologist inspired to provide support of the head and shoulders while facilitating extension and exposure of the anterior neck
- **Uniquely shaped base creates cervical extension while the adjustable/removable head holder provides lateral head support minimizing rotational/translational motion**
- Easy to separate, the base and head support can be used independently
- Blue covering is fluid proof with a bacteriostatic additive, wipes clean with standard germicidals
- Meets Joint Commission and Flame Retardant Standards (CAL 177)

PTI-STP Adjustable Neck/Head Support System

## Ankle/Feet/Leg Immobilizer

- Technologist inspired to provide support of the lower extremities, feet and ankles during medical imaging
- **Ideal for SPECT/CT of the feet and ankles, bone scans, white blood cell imaging**
- Closed end design facilitates fixed 90 degree positioning of the feet which minimizes motion and provides for repeatability of positioning
- Integrated divider wall separates extremities while providing lateral support
- Meets Joint Commission and Flame Retardant Standards (CAL 177)

Dimensions: 14" W x 18" D x 10" H

PTI-402-AFL Ankle/Feet/Leg Immobilizer
